SUPPORT BY HOPE for HIE

Professional Support Resources

CERTIFIED SOCIAL WORKER

Provides personalized emotional guidance and support, professional and peer connection via weekly video support groups, and access to Hope for HIE and/or local resources, support programs, and services.

CERTIFIED CHILD LIFE SPECIALIST

Provides personalized coping plans, developmentally appropriate resources for HIE children and siblings, parent coaching, and peer support programs focused on coping skills and therapeutic play.

CERTIFIED GRIEF COUNSELOR

Provides bereavement and loss support, helping families navigate their grief journey through legacy building, meaningful memory-making, and personalized guidance.

COMMUNITY RESOURCE NETWORK

As part of the Child Neurology Foundation's Neurological Social Services Network (NSSN), we have access to localized resources for families in need and can facilitate bi-directional referrals.

Social Work Programs & Services

PEER SUPPORT MENTORSHIP

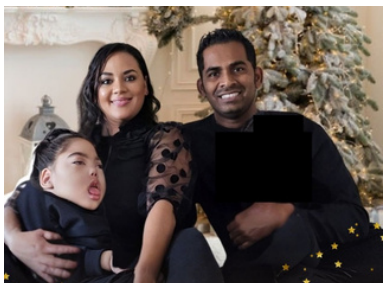
Provides sustained 1:1 or on-call mentorships across all ranges, impacts, and outcomes. Mentors and mentees are paired through a process facilitated by our social worker and peer support coordinator.

MONTHLY VIRTUAL SUPPORT GROUPS

Facilitated by our social worker, these closed Zoom experiences create a space for families to connect, share, and find healing and hope across all ranges, impacts, and outcomes.

HIE HOSPITAL AMBASSADOR PROGRAM

Ambassadors act as a conduit of connection between their local hospitals and Hope for HIE's longitudinal support resources to improve family outcomes and cohesiveness of care.



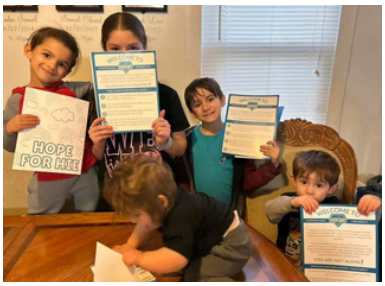
Child Life Programs & Services

SOAR PROGRAM

The SOAR (Support, Ownership, Advocacy, Resilience) program helps children with HIE (ages 7+) develop self-advocacy skills, build peer connections, and navigate their journeys with confidence.

SUPER SIBS PROGRAM

The Super Sibs program provides support, peer connections, and developmentally appropriate activities for siblings of children with HIE to help them celebrate their strengths and roles within their families.



SUPPORTSPOT BY CHILD LIFE ON CALL

Free for HIE families, this app offers expert guidance, coping tools, and tailored resources to help the whole family navigate the emotional and developmental challenges of HIE.

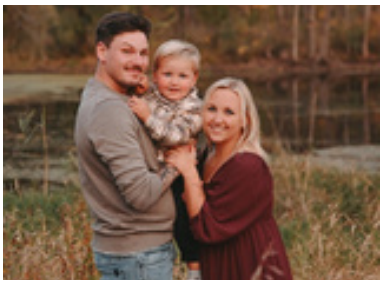
Additional Support & Educational Resources

COMPREHENSIVE ONLINE SUPPORT NETWORK

We host over 100 age, location, outcome, demographic, and topic-focused support groups found on Facebook and aligned with our Community Guidelines to ensure a safe, consistent experience.

MEDICAL ADVISORY BOARD Q&As

Features medical providers from various specialties who provide relevant insights into the different ranges, impacts, and outcomes of HIE as well as clinical study and research updates.



HIE PEER PERSPECTIVE SERIES

Features experienced HIE parents and legal guardians who offer guidance, comfort, and support by sharing their insights and experiences with the diagnosis across all ranges, impacts, and outcomes.

CHILD LIFE Q&As

Features certified child life specialists as they offer expert insights, practical advice, and support and educational resources to support the whole family in the journey with HIE.

CLINICAL TRIAL & RESEARCH HUB

Gathers resources reviewed by our Medical Advisory Board on participating in research and exploring treatments, medications, and therapies to improve families' quality of life.
